

imagine contours that fit your life

The New Samsung R87 LCD TV

A stack of three smooth, dark, rounded stones, possibly river stones, resting on a reflective surface. The top stone is the most prominent, with a lighter, textured top surface and a dark, smooth bottom. The middle and bottom stones are partially obscured by the top one and its reflection. The background is a dark, gradient blue-grey.

The Samsung R87 LCD Television is more than a TV; it's a work of art that inspires admiration. It not only delivers powerful home entertainment, but also speaks volumes about your sense of style with its new elegant form. Its contoured design lines please the eye, while its full range of connectivity features provide you with a complete multimedia experience.

The Samsung R87 LCD TV is designed to seamlessly adapt to any environment. Careful attention to detail and craft are evident in the finish when viewed from any angle.

The beauty of the unique design and porcelain-like finish is further enhanced by cleverly concealing the surround sound speakers beneath the bezel in the front of the TV and by placing all controls neatly to the side. The elegantly integrated swivel stand completes the look.

In addition to its beautiful form, the R87 LCD TV delivers a range of features that make viewing more enjoyable and rewarding.

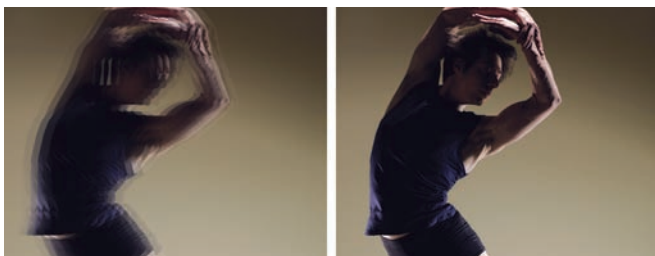

The R87 LCD TV uses the latest industry technologies and proprietary features to create the most detailed picture, exciting sound and user-friendly interface available.

STYLE WITH SUBSTANCE

The R87 makes every scene beautiful. Thanks to features like Movie Plus, Dynamic Contrast Ratio and Wide Colour Enhancer, you'll enjoy vivid clarity that brings your world to life.

Movie Plus

The R87 renders every motion more fluid and every shape more pronounced — no more blurred lines or ghosted images. Its Movie Plus technology actually predicts what the next frame will be and adds a before/after blend between images to smooth fast moving transitions. The result is a richer, more continuous viewing experience.

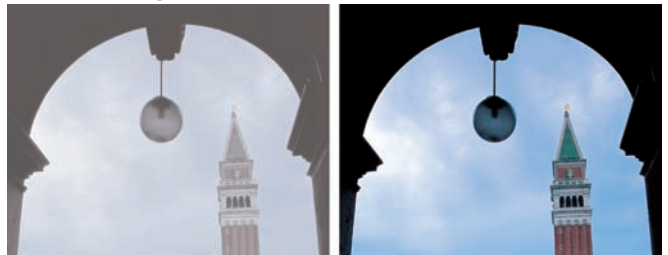

Conventional

Movie Plus

8,000:1 Dynamic Contrast Ratio (32" and above)

Experience the visual delights of high contrast. Samsung's R87 LCD TV offers you a close-to-perfect reproduction of light and shadow through a high dynamic contrast ratio of 8,000:1. This means the image is more vivid than ever before.

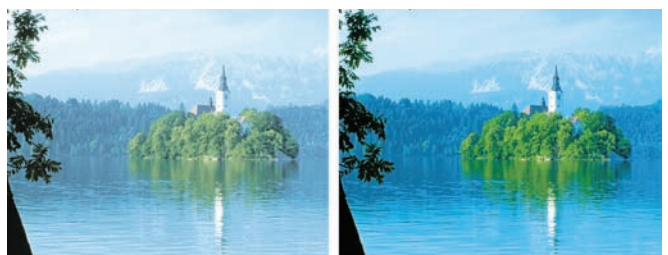

Conventional

8,000:1 Dynamic Contrast Ratio

Wide Colour Enhancer

See colours the way they were meant to be seen. In sunshine or strong light, greens and blues can look blurry. But, with the Wide Colour Enhancer, leaves are greener and the sky is bluer. Every colour is as it should be.

Conventional

Wide Color Enhancer

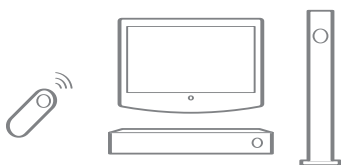

CONVENIENT CONNECTIVITY

The R87 enables you to enjoy the highest quality image and sound reproduction and connects seamlessly to all your portable devices, such as PC, set top box, DVD and digital camera.

Anynet+ (HDMI-CEC)*

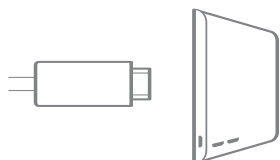

You're in full command with the R87. Anynet+ delivers streamlined, one-touch control over all your connected devices such as a DVD Player and Home Theatre. You can operate all of them with a single remote control that enables commands to be passed among devices within the system**.

3 High Definition Multimedia Interface Ports***

There's no more searching for hard-to-find connections. The R87 is equipped with three HDMI™ ports, one of which is located on the side for ready access. That means it's simple to connect with a digital camera, game console or other digital devices. With three ports in total, you can stay connected to a range of devices simultaneously.

1 SIDE & 2 REAR PORTS

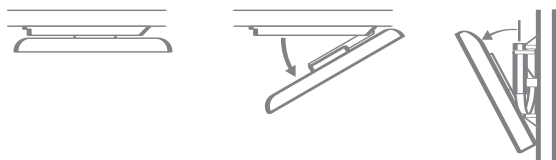

ENJOY THE FREEDOM TO CUSTOMISE

From easy positioning and mobility to special picture modes, the R87 is augmented by a host of extra features that makes it stand out from the crowd.

Auto Wall Mount System

You'll enjoy perfect viewing angles with a remote-controlled wall mount system that extends, swivels and tilts the screen. The system automatically reverts to its flush position when the TV is turned off. Auto wall mount is optional for units over 40" in size.

AUTO CENTRE LEFT & RIGHT UP & DOWN

Game Mode

Feel the thrill of being right in the game. The R87 offers unparalleled picture quality that can be optimised for gaming with Game Mode. It displays sharper images that bring the game to life. In addition, its powerful surround-sound effects create a rich, immersive experience that will maximise the thrill of the game.

Swivel Stand

Watch TV in comfort. The R87's swivel stand allows you to position the screen in a range of angles. Pick your favourite chair, relax and enjoy.

* This feature may work on other brands, however, we can only guarantee with Samsung branded products.

** 32" and above only

*** 32" and above only - 23" and 26" 2 x HDMI

Which R8 is the best match for you?

A world of options is at your disposal. Choose between two colours or set up the perfect viewing angle with options like the swivel base or remote activated auto wall mount, available in the 40" size. And, of course, screen size is up to you. A 23" for gaming or a 40" for your living room. The choice is yours.
